

BA (HONS) ACCOUNTANCY

with Foundation Year

A Career You Can Count On

Covering the latest practices and theories of accounting, our **BA (Hons) in Accountancy with Foundation Year** offers essential training for entry into this truly prestigious global profession, along with an impressive range of exemptions from professional accountancy body examinations.

Fundamental to planning and forecasting, budgeting and control, taxation and decision making, competent and resourceful accountants are essential to success in business and commerce.

Why do an Accountancy degree?

The initial foundation year offers you an excellent grounding in the fundamentals of accounting and helps prepare you for degree level study. Our dedicated and experienced team will draw on the latest practices and theories of accounting.

You'll also be able to choose from a number of optional modules in your final year, which include (amongst others) taxation and audit.

Alongside developing your accountancy-related knowledge, we will help you develop lifelong learning skills so that you can reflect on, articulate, transfer and take ownership of the development of your skills, maximising your success.

Our **BA (Hons) in Accountancy with Foundation Year** is designed to give you the academic knowledge and practical skills needed for a professional career in accountancy.

Why Regent College London?

Progression Opportunities

An accountancy degree will develop your understanding of accountancy practices, commerce, industry and finance.

Accountancy graduates will develop a variety of technical and transferable skills that are sought after by a wide range of business sector employers and organisations.

You will learn about commercial awareness and how businesses function, and gain numerical and quantitative skills linked to the business context.

You will be able to solve problems, analyse data and statistics, and have the ability to present information both orally and on paper.

You will also have the skills of attention to detail and strong organisational ability.

What can I do with this qualification?

After graduation, you may choose to enter industry and get a job as a trainee company accountant or internal auditor, or join a practice and train as an auditor or tax consultant.

An accountancy degree will provide you with a platform to enter a range of sectors, Taxation or Auditing specialist, investment and insurance, management consultancy, and government agencies such as HM Revenue and Customs.

Many of our graduates have gone on to qualify as accountants, with either CIMA, ACCA, ICAS or ICAEW.

Accountancy graduates can also explore graduate schemes, which are long-term employment contracts, often as an accountant in an SME or even a very large, multinational accountancy firms such as Deloitte, KPMG, PwC and EY.

They use large-scale recruitment campaigns and assessments to attract the most promising graduates and have high-minimum requirements.
